

## Ladywood High School Wait Program 2015-2016

Dear Parents,

We at Ladywood High School are most appreciative of you entrusting us with the education and care of your daughter(s). Their safety and security are paramount before, during and after school hours. Our Safety and Security Team has implemented many new updates this year and would like to improve the Wait program with this new form. As you know the school ends at 2:10. We are aware that many of our young ladies do remain after school for various activities. We are offering a supervised wait room located in the cafeteria. The supervised hours are limited to 4:30pm but the ladies may stay until 6:00pm. Your daughter will be responsible to complete the log sheet and will be required not to leave the building until her ride arrives.
